

OPPORTUNITY

POSITION: Fire Extinguisher and Inside Shop Technician

DATE POSTED: November 18, 2011

LOCATION : Calgary

The responsibility of the Fire Extinguisher/Shop Technician is to improve Levitt-Safety's level of service to the end user customer. The incumbent will perform the duties in the dual role of inside and outside Fire Extinguisher Technician and be responsible for maintaining an accurate inventory system and organized shop environment.

DUTIES AND RESPONSIBILITIES

- Conduct basic testing on hand held fire extinguishers
- Conduct repairs and recharging of fire extinguishers
- Parts order picking & receiving
- Inventory control
- Perform Fire Extinguisher service calls on customer sites
- The ability to obtain various industry certifications
- Update and retrieve relevant MSDS's for WHMIS compliance
- Accurate and timely completion and submission of all relevant paperwork
- Be an ongoing contributor to the continuous development of Job Hazard Analysis's and Safe Work Practices relevant to the position

QUALIFICATIONS

Grade 12 or equivalent

The ideal candidate will have industry experience with Fire Extinguisher service & repair. A background in a service shop type environment and mechanical experience is required. Certification/background in Scott hand held and wheeled unit fire extinguishers would be an asset.

Above average skills in accurately recording inventory in and out of the service shop.
Good computer skills

PHYSICAL REQUIREMENTS

This position involves prolonged standing, working from heights, working in dusty environments and lifting and carrying up to 50lbs.

If you meet these qualifications and would like to explore a great opportunity, email your resume to hr@levitt-safety.com or fax to 780 – 461 – 8371
