

Upgrade to a Rescue-Ready ZOLL® AED

Trade in any AED and
receive \$400 toward
a new ZOLL AED

AEDs play a critical role in saving lives when sudden cardiac arrest strikes — but only if they are ready to perform.

As AEDs age, they can become discontinued or unsupported, making it difficult—or even impossible—to obtain replacement pads and batteries. Without ongoing support and proper maintenance, your AED may not be ready to perform when it's needed most.

If your AED is older, out of warranty, or no longer supported, it may be time to upgrade.

The good news? Your existing AED still has value.

**Receive \$400 Trade-In credit
toward a new ZOLL AED**

- Any AED
- Any brand

**Signs that your AED may need to
be replaced:**

- It's over 10 years old
- It's no longer supported by the manufacturer
- Replacement pads or batteries are unavailable
- It's out of warranty

Offer valid through June 30th, 2026. Trade-in credit applies to new AED purchases only. Trade-in device must be returned. Contact us for full eligibility and terms.
