Hand injuries make up over a quarter of workplace incidents. With gloves accounting for up to 30% of your safety budget, you should be working on creating a strong hand protection program. Not sure how to design a program? **WE'VE GOT YOU COVERED** – our expert glove review process can make a huge impact on your organisation's overall safety stats.

THE **AVERAGE COST** OF A HAND INJURY IS
\$22,384!

WHAT CAN YOU DO?

Performing a glove review can:

START THE **GLOVE REVIEW** PROCESS! ➤

- Meet with one of our glove protection specialists to determine your goals
- Assess your facility's risks, your glove selection process, and interview employees
- Determine areas of success, and what can be improved
- Trial new glove options and evaluate changes
