SNOWFORCE™

CRYOGENIC GLOVES
WITH RAOTEX™
WATERPROOF LINER

EN511

33X

(Not a CE Certified
glove/testing
information only)

AVAILABLE SIZES

FEATURES

- 3M Thinsulate™ insulation provides protection from the extreme cold present when dealing with cryogenic fluids
- RaoTex™ insert prevents cryogenic liquids from soaking through to the skin and also acts as an added insulator, trapping body heat while allowing moisture to escape
- Features an extended cuff for added protection
- Loose-fitting structure to allow for easy removal in the case of contact with cryogenic fluids

Note: This glove is not for full immersion in liquids.

APPLICATIONS

Cryogenics
Natural Gas Processing
Laboratories
Extreme Cold Applications
